Level 2 Snowshoeing

• This training is to certify coaches as Level 2 coaches for Snowshoeing.

• Certification (or recertification) is good for 3 years from date completed.
Level 2 Snowshoeing

This training will cover the following sections:

- Equipment
- Events and Rules
- Registration and the divisioning process
- Snowshoeing resources.

Included is the Coaching Athletes training that will prepare you to use your sport-specific knowledge in coaching athletes with intellectual disabilities.
Coaching Special Olympics Athletes

• For veteran Special Olympics coaches, this course serves as a reminder of the essentials of coaching.

• For new Special Olympics coaches, this course will help prepare you for your first role in coaching Special Olympics athletes.
Coaching Special Olympics Athletes

The better the coach …

the better the experiences …

the better the athlete!

Above: A Special Olympics coach talking with a tennis athlete
Left: Special Olympics coach giving high fives on the sideline
Course Overview

This course will cover specific topics related to:

1 - The Athlete
2 - Teaching & Training
3 - Preparing for & Coaching During Competition
4 - Managing the Program
Unit 1 - The Athlete

Important Considerations concerning Special Olympics Athletes

Psychological Considerations
(Learning)

Medical Considerations

Social Considerations
Motivation – helping athletes maintain interest
- May have shorter attention span; harder to keep “on task”.
- May be motivated more by short-term rather than long-term goals.
- May learn better with more frequent positive reinforcement.

Perception – helping athletes understand the sport in which they are participating
- May have impairments in sight or hearing.
- May have difficulty focusing attention on the appropriate object or task.
Unit 1 - Psychological Considerations

**Comprehension** – helping athletes remember and perform the skill they have learned

- May find it difficult to understand verbal explanations of skills.
- May find it easier to learn through visual demonstrations.
- May have difficulty in understanding complex explanations.
- May take a longer time between learning multiple pieces of information.
- May have difficulty generalizing skills learned in one situation to a different situation.
- Written instructions may be more helpful than verbal, depending on the situation.
## Unit 1 - Psychological Challenges

<table>
<thead>
<tr>
<th>Psychological Item</th>
<th>Challenge</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>Perception</td>
<td>Easily distracted by noise</td>
<td>Control surroundings</td>
</tr>
<tr>
<td>Motivation</td>
<td>Easily discouraged, or having a feeling of failure</td>
<td>Focus on positive communication</td>
</tr>
<tr>
<td>Comprehension</td>
<td>Difficulty learning from verbal explanation or long instructions</td>
<td>Add demonstrations of skills, keeping instructions clear and concise</td>
</tr>
</tbody>
</table>
Unit 1 - Psychological Challenges

Motivation
• Challenge – Easily discouraged, or having feeling of failure
• Action – Point out positive things when the athlete is doing well

Comprehension
• Challenge – Learning from verbal explanation or long instructions
• Action – Add demonstrations, hands-on walkthroughs of skills, keeping instructions clear and concise

Perception
• Challenge – Easily distracted by noise
• Action – Control surroundings

Right: Athlete running by a crowd at track and field.
Down Syndrome

• Approximately 10% of individuals with Down Syndrome have a condition called Atlanto-axial instability.
• This condition may cause possible injury if they participate in activities that hyper-extend or radically flex the neck or upper spine.
• Prohibited sports – equestrian, gymnastics, diving, pentathlon, butterfly and dive starts in swimming, high jump, alpine/snowboarding, squat (powerlifting) and soccer.

Right: Two athletes celebrate at swimming.
Unit 1 - Medical Considerations

Medications

- Understand that athletes may be taking medications that have physical side effects.
- Consult with head coach or head of delegation if concerns arise.

Seizures

- The number of Special Olympics athletes with seizure disorders is higher than traditional athletes.
- Tasks to remember when assisting an athlete having a seizure:
  - Assist to a safe space around them;
  - Protect their head and neck; and
  - Lay on their side.
Physical Disabilities

- Some athletes also have physical disabilities which may affect the sports they can participate in.
- Special Olympics has events for individuals who use wheelchairs, walkers or other assistance.
- Muscle strength may be needed for a sport and some athletes may not have the strength for that sport.
  - This might be due to lack of use or a permanent disability.
  - This will change how you as a coach approaches helping this athlete.
Autism

• Approximately 20% of athletes have an autism diagnosis
• Approximately 50% of people with autism are non-verbal

Fetal Alcohol Syndrome

• These athletes may consistently function better on performance tasks compared with verbal tasks. The more concrete the task, the better the performance.
• These athletes may tend to have attention and memory deficits and often display poor judgment in identifying right from wrong.
## Unit 1 – Medical Considerations Table

<table>
<thead>
<tr>
<th>Diagnosis</th>
<th>Consideration</th>
</tr>
</thead>
<tbody>
<tr>
<td>Down Syndrome</td>
<td>Family should ensure the athlete is screened for Atlanto-axial instability (see medical if necessary)</td>
</tr>
<tr>
<td>Seizure Disorder</td>
<td>Be prepared to protect and observe the athlete should a seizure occur and minimize adverse affects</td>
</tr>
<tr>
<td>Autism spectrum disorder</td>
<td>Understand that athletes will engage in self-stimulatory behavior (hand-flapping, jumping, etc.), and that it is not necessarily a problem</td>
</tr>
<tr>
<td>Attention deficit/hyperactivity (ADHD)</td>
<td>Shorten drills and provide one-to-one assistance when needed</td>
</tr>
<tr>
<td>Fetal alcohol syndrome</td>
<td>Demonstrate clear performance tasks</td>
</tr>
</tbody>
</table>
Unit 1 - Social Considerations

**Economic Status**
- May lack financial means to participate.
- May not have access to independent transportation.

**Social Skills**
- May lack basic interactive skills.
- May lack language interpretation.

**Recreation at Home**
- May lack physical activity.
- May lack encouragement/motivation.

*Right:* Basketball team huddles up for a breakdown
All the following social considerations may impact an athlete’s participation in Special Olympics:

- Inappropriate responses to social situations
- Extreme lack of endurance
- Lack of access to transportation

Our challenge as coaches is to develop a full understanding of our athletes and what they bring with them to a Special Olympics program.

Left: Caddie congratulates an athlete at a golf competition.
Unit 2 – Teaching & Training the Athlete

**Top Left:** Basketball coach talking to team on sidelines

**Bottom Left:** Coach discussing strategy with an athlete

**Top Right:** Athlete getting prepared for powerlifting competition

**Bottom Right:** Coach getting athlete ready before track race
There are many ways to organize a training session for Special Olympics athletes.

There is considerable value in developing a consistent training routine that provides familiarity.

1. **Warm-Up and Stretching**
   - Specific to the sport
   - Similar in every practice session
   - Involve athletes in leading activity
Unit 2 - Organizing a Training Session

2. Skills Instruction
   • Break skills into smaller tasks
   • Involve as many athletes at a time as possible
   • Practice skills directly related to competition

3. Competition Experience
   • Simulating game situations
   • Work towards what the competition will look like

4. Cool-Down, Stretch, and Reward
   • Play a game related to the sport
   • End each training with a cool-down activity and stretching
Unit 2 - Training Sequence

1. Break down skills into small tasks or steps.
2. Put together tasks to form skills.
3. Use drills and activities that always involve many athletes.
4. Practice skills in situations that are related to the game or event.

Above: Athlete and trainer working on alpine skiing.
## Unit 2 - Training Sequence

<table>
<thead>
<tr>
<th>Step</th>
<th>Challenge</th>
<th>Consideration</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tasks</td>
<td>Performing important parts of competition</td>
<td>Break down into individual parts</td>
</tr>
<tr>
<td>Skills</td>
<td>Performing series of tasks effectively that are necessary to perform a sport</td>
<td>Focus on the most important tasks for the sport</td>
</tr>
<tr>
<td>Application</td>
<td>Repeatedly demonstrate sport tasks in different situations</td>
<td>Provide game-like drills in practice</td>
</tr>
<tr>
<td>Competition</td>
<td>Putting essential sport skills into practice</td>
<td>Provide scrimmage opportunities in practice</td>
</tr>
</tbody>
</table>
Communication is key to immediately reinforcing desired behavior.

There are several key words that begin with a “C” which address what a coach should say:

- Clear
- Concrete
- Concise
- Consistent
- Command-oriented

Left: Coach and athlete share a high-five at first base
Below: Coach and athlete having a conversation while at alpine skiing
## Unit 2 – Communication

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Description</th>
<th>Sport Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>Clear</td>
<td>Use word that are easy to understand</td>
<td>“Swing the bat” Softball</td>
</tr>
<tr>
<td>Concrete</td>
<td>Connect words to something defined</td>
<td>“Jump forward” Long Jump</td>
</tr>
<tr>
<td>Concise</td>
<td>Use a few key words that cue a desired action</td>
<td>“Go to the free throw line” Basketball</td>
</tr>
<tr>
<td>Consistent</td>
<td>Use the same word or phrase for the same action</td>
<td>“Breathe” Swimming</td>
</tr>
<tr>
<td>Command-Oriented</td>
<td>Use words that reinforce a desired action</td>
<td>“On your mark. Set. Go.” Track and Field</td>
</tr>
</tbody>
</table>
Unit 2 - Levels of Assistance

Each athlete needs to be met where he or she is.

It is important to use the appropriate level of instruction and assistance.

- Athletes with lower abilities may need more assistance
- Verbal assistance should always be paired with a demonstration
- Physical assistance may be needed to help an athlete get positioned

Above: Coach demonstrating the grip of a golf club to an athlete
## Unit 2 - Levels of Assistance

<table>
<thead>
<tr>
<th>Level of Assistance</th>
<th>Description</th>
<th>Sport Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>Verbal</td>
<td>Tell the athlete what to do</td>
<td>Footwork: “run forward to the line; then stop”</td>
</tr>
<tr>
<td>Demonstration</td>
<td>Show the athlete the what to do</td>
<td>Basketball: have athlete watch while someone else shoots a free throw</td>
</tr>
<tr>
<td>Partial Physical Assistance</td>
<td>Place the athlete in the proper position</td>
<td>Golf: coach adjusts the athlete's hands on the golf club with the correct grip</td>
</tr>
<tr>
<td>Full Physical Assistance</td>
<td>Help the athlete through the entire motion of the skill</td>
<td>Bowling: coach moves the athlete’s arm through the entire bowling movement</td>
</tr>
</tbody>
</table>
A coach may often have certain expectations of an athlete that may not be realistic ... not because the coach does not care, but because the coach does not understand or appreciate the differences that may exist.

When an athlete shows inappropriate behavior, it may not be defiance, acting out or silliness.

These behaviors may simply reflect the person and/or what is operating in the moment.
<table>
<thead>
<tr>
<th>Athlete Behavior</th>
<th>Strategies to Improve Learning</th>
</tr>
</thead>
</table>
| Swimmer has a short attention span                   | 1. Focus on a stroke for short periods of time  
2. Provide multiple activities focusing on same task |
| Basketball athlete yells if they miss a shot          | 1. Emphasize the other parts of the game  
2. Work on shooting drills without a hoop, then evolve to shooting at a hoop |
| Bowler doesn’t wait their turn                        | 1. Have a coach at the lane help with the order of bowlers, explain whose turn it is  
2. Emphasize that the bowler will always follow the same person |
A key goal of Special Olympics is to provide an opportunity for all athletes to experience success in competitions.

A Special Olympics athlete can benefit from many aspects of a competition, but nothing should be as important to the coach as the focus on the participation in the competition itself.

This section highlights ways to improve the quality of an athlete’s competition experience.
Unit 3 - Preparing for Competition

Registration

- Provide accurate team roster information, qualifying times, and skills assessment scores.

Official competition rules

- Make sure that you know the Official Special Olympics Rules.
- Teach your athletes the rules and, during training, phase out your verbal reminders about rules.
- At competition, coaches may have little or no opportunity to assist athletes when they are not following the rules. (A coach cannot be on the track with them!)

Right: A poly hockey official calls ‘no goal’
Unit 3 - Preparing for Competition

Supervision

• Why are non-coaching support members important? There is a lot going on outside of the actual competition, including:
  • Transportation
  • Lodging (need for same-sex supervision)
  • Social activities
  • Multiple events to supervise
  • Awards ceremonies

• Create a supervision document that has athletes covered in every part of the competition
Unit 3 - Preparing for Competition

Travel and overnight

• Discuss overnight concerns with parents or group-home supervisors.

• Distribute a simple checklist of items to bring for athletes.

• Make sure that all special medication needs are understood.
  • Coaches may have to assist with handling medications, so be sure to always have all medical forms and information readily available.

• Arrange an effective rooming situation that limits possible clashes between athletes.
Unit 3 - Competition-Day Coaching

Guidelines for success

• Teach responsibility & independence
• Help athletes understand what to wear and what to expect on competition day
• Teach athletes how to maintain appropriate behavior at a competition
• Arrive early to allow time for putting on uniforms, a warm-up and stretching routine and focusing on the competition.
• Encourage maximum effort in practice and competition
Unit 3 - Competition-Day Coaching

Guidelines for success

• Let athletes compete without direct supervision
  • Allow athletes to make mistakes and help them learn from them
• Make any official protests calmly
  • If you think there is a valid reason to protest the outcome, do so in a calm manner, and not involving athletes in disputes.
  • Help athletes deal appropriately with winning and losing.
  • Focus on effort made, recognize accomplishments and new skills that were performed and taking something positive away from every experience.
The successful Special Olympics coach is:

- Knowledgeable about the sport and coaching
  - Knowledge of the sport and how to teach it is essential if coaches are to help athletes and truly benefit from their Special Olympics experience.
  - Successful coaches are constantly looking for opportunities to learn more about the sport.
- Knowledgeable about Special Olympics
  - Special Olympics has a clear mission, philosophy, and rules that have been developed through years of worldwide experience.
  - A better understanding of the mission will benefit your athletes.
Unit 4 – Managing the Program

The successful Special Olympics coach:

- Recruits and trains assistant coaches
  - Assistant coaches can be recruited to provide one-to-one attention
  - Assistant coaches are the most useful when they are trained and are a part of the planning process at practice
- Recruits and trains athletes
  - A coach is also a promoter and recruiter, hopefully trying to expand their team to more possible athletes
- Assists with appropriate sport selection
  - Picking a sport that is both age and ability appropriate for their team
The successful Special Olympics coach:

- Offers activities for all ability levels
- Puts a priority on safety
- Involves families and providers
  - This includes educating families and providers about the benefits of Special Olympics, as well as appropriate nutrition and training at home
- Assists with community inclusion
  - Improves social skills and creates opportunities to spread information about Special Olympics
Unit 4 – Preparation

1. Assessment
2. Goal Setting
3. Season Plan
4. Training and Competition
5. Final Competition
6. Review
Level 2 Snowshoeing

</tbody>
</table>

- All Coaches and Unified Partners must complete the Level 1 training prior to participating with a team.
- Level 1 certification requires a Volunteer Application and Level 1 online training and both items are found [here](#).
Equipment

Snowshoes

• Frame should not be smaller than 7 inches by 20 inches.
• No additional spikes are permitted.

Footwear/Poles

• Competition footwear is limited to running shoes, hiking boots, or snow boots.
• Poles are optional.

Bibs

• Bib numbers must be visible on the front torso.
Events

Race Lengths
- There will be 25-, 50-, 100-, 200-, and 400-meter races available.
- Courses may include straightaways, down and backs, or a loop.
- All races will be offered as traditional and Unified.

Registration Limits
- All participants are allowed to register for up to three events.
- This can be any combination of traditional or Unified events.
Events

Unified Doubles Races

- Athletes and Unified Partners will each need an individual qualifying time for registration.

- Teams will race at the same time but may be divisioned against teams that are in a separate heat.
  
  - This is mainly due to only having 4-6 lanes on the course.

- Final times will be the sum of the two participants times.
Rules of Competition

The Start

- Participants must have both tips of their snowshoes behind the starting line.
- There will be no timed interval starts.
- The starting command will be “racers ready… Go!”

False Starts

- Any participant starting before the start signal will be charged with a false start.
- Anyone that makes two false starts in the same race will be disqualified from that race.
Rules of Competition

The Race

• Only the officials and competitors in the race are allowed on the course.
• In the 25-, 50-, and 100-meter races, each competitor should stay in their assigned lane from start to finish.

The Finish

• A competitor has finished the race when their torso reaches the vertical plane of the finish line.
• A competitor must have both snowshoes on their feet when crossing the finish line.
Rules of Competition

Two-Minute Rule

- If during a race a competitor falls, has difficulty with a snowshoe or binding, or leave the course, they have two minutes to correct the problem.

- In any race 100 meters or longer, competitors must progress at least 20 meters toward the finish line every 2 minutes.

Above: Athlete competing in a snowshoe race.
Rules of Competition

A competitor will be disqualified for any of the following:

• Progressing more than 3 steps without snowshoes.
• Crossing the finish line without snowshoes on feet.
• Receiving any physical assistance.
• Impeding another competitor.
• Leaving the course voluntarily.
• Making two false starts.
• Using improper snowshoes.
Assistance Categories

Staging

• The athlete can have an assistant only through the staging area.

1-on-1

• The athlete can have an assistant through the staging area and up to the starting line.
• At this point, the assistant must go to the finish line and wait.

Outside Lane

• The athlete will be in a lane on the outside of the course.
Divisioning

Coaches need to include the competitor’s qualifying time for each event for which they are registered.

There may be multiple divisions on the course for some races, depending on the size of the competition.

Please advice coaches, parents, and spectators of this so there is not confusion during or after the race.
Practice, Skill Development & Resources

- Special Olympics Minnesota wants to make sure that you have confidence in your knowledge of the snowshoeing rules.

- On the next slide, you will find links to many resources that can help with the training and skill development for athletes.

**Above:** Starting line at a snowshoe competition.
Practice, Skill Development & Resources

**Special Olympics Snowshoeing Resources**

- Special Olympics Minnesota Snowshoeing Handbook
- SOI Snowshoeing Coaching Guide (scroll down on page)

For any questions regarding Special Olympics Minnesota snowshoeing, please contact sports@somn.org.
Healthy Athletes

- **Improve** access to health care for athletes at event-based health screenings.
- Make **referrals** to local health practitioners.
- **Train** and **educate** health care professionals, providers and students.
- Healthy Athletes events are often held with sports competitions.
- Athletes receive 2-4 hours of screenings, education and care.
- Athletes with follow-up needs receive referrals to local providers.
- All services are provided by volunteer health professionals and students.

- Contact Jeff Prendergast | Health Programs Coordinator [jeff.prendergast@somn.org](mailto:jeff.prendergast@somn.org)
SOMN Health Programs

**Fit5**

- Plan for physical activity, nutrition and hydration
  - 5 fruits and vegetables a day
  - 5 bottles of water a day
  - 5 days of physical activity a week
- Fitness cards offer exercises to challenge abilities. These can be done at practice, the gym and home.
- Seasonal pledge challenges for teams offer incentives and resources.
